EXECUTIVE SUMMARY

The Intergovernmental Budget and Economic Council (IBEC) is the principal statutory forum for consultation and cooperation between the National and County Governments on budgetary, economic and financial management matters, as established under the Public Finance Management Act, 2012 and related regulatory frameworks. In discharging this mandate, IBEC requires standardized procedures that promote efficiency, consistency, accountability, institutional memory and evidence-based decision-making in the convening, conduct and follow-up of Council meetings and resolutions.

These Draft Standard Operating Procedures (SOPs) for Convening and Conducting IBEC Meetings have been developed to provide clear and harmonized guidance on the categorization of IBEC meetings, issuance of notices, agenda setting and approval, conduct of proceedings, record-keeping, communication of resolutions, reporting, and stakeholder engagement.

The development of these Draft SOPs was informed by operational experiences and emerging institutional needs, and was further undertaken pursuant to a resolution of the 28th Ordinary / Full Council Session of IBEC held on 29th September, 2025 at the Official Residence, Karen, which directed the Secretariat to harmonize and standardize procedures for convening and conducting IBEC meetings.

It is anticipated that these SOPs will strengthen the Council's operational effectiveness, enhance intergovernmental coordination, and support timely implementation of IBEC resolutions in line with the principles of good governance and the constitutional framework for intergovernmental relations in Kenya.

CHAPTER ONE: INTRODUCTION

1.1 Legal, Policy and Institutional Framework

This section outlines the constitutional, statutory and regulatory foundations establishing the Intergovernmental Budget and Economic Council (IBEC) and defining its mandate. All laws, policies, regulations, and guidelines governing IBEC operations are developed in conformity with the Constitution of Kenya (2010).

1.1.1 Constitutional Foundations

- **Article 6(2):** Establishes two distinct and interdependent levels of Government; the National and County Governments and mandates that their mutual relations be conducted on the basis of consultation and cooperation.
- **Chapter Eleven:** Provides for devolved Government and intergovernmental relations, including principles of cooperation, consultation and dispute resolution.
- **Chapter Twelve:** Establishes principles and framework for public finance, including equitable sharing of nationally raised revenue between the National and County Governments and among counties.

1.1.2 Statutory and Regulatory Framework

- **Public Finance Management (PFM) Act, 2012 (Section 187):** Establishes IBEC as the principal statutory forum for consultation and cooperation on budgetary, economic and financial management matters affecting both levels of Government and defines its mandate, membership and structured meeting arrangements.
- **PFM (National Government) Regulations, 2015 (Regulations 210–215):** Provides the operational guidance on IBEC meetings, including purpose, composition, convening, chairing, including documentation and reporting obligations.
- **Intergovernmental Relations Act, 2012:** Embeds IBEC within Kenya's intergovernmental relations framework as the statutory mechanism for cooperative engagement on cross-cutting fiscal and functional matters.

County Governments Act, 2012: Provides for the powers, functions and responsibilities of County Governments, ensuring alignment of county fiscal planning and execution with intergovernmental coordination. Collectively, these instruments form the legal and policy foundation of IBEC, affirming its dual role as a consultative and coordinating body for structured fiscal dialogue and coherent National and County economic management.
